NTS Polyclonal Antibody

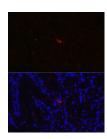

Catalog No. E-AB-65893 Reactivity H,M,R Storage Store at -20°C. Avoid freeze / thaw cycles. Rabbit Host **Applications** WB.IF **Isotype IgG**

Note: Centrifuge before opening to ensure complete recovery of vial contents.

Images

Western blot analysis of extracts of various cell lines using NTS Polyclonal Antibody at 1:3000 dilution.

Immunofluorescence analysis of Rat small intestine using NTS Polyclonal Antibody at dilution of 1:350. Blue: DAPI for nuclear staining.

Immunogen Information

Immunogen Recombinant fusion protein of human NTS

4922 GeneID P30990 **Swissprot**

Synonyms NTS.NMN-125.NN.NT.NT/N.NTS1

Product Information

Calculated MW 19kDa **Observed MW** 20kDa

Buffer PBS with 0.01% thiomersal,50% glycerol,pH7.3.

Purify Affinity purification

Dilution WB 1:500-1:2000,IF 1:50-1:200

Background

This gene encodes a common precursor for two peptides, neuromedin N and neurotensin. Neurotensin is a secreted tridecapeptide, which is widely distributed throughout the central nervous system, and may function as a neurotransmitter or a neuromodulator. It may be involved in dopamineassociated pathophysiological events, in the maintenance of gut structure and function, and in the regulation of fat metabolism. Neurotensin also exhibits antimicrobial activity against bacteria and fungi. Tissue-specific processing may lead to the formation in some tissues of larger forms of neuromedin N and neurotensin. The large forms may represent more stable peptides that are also biologically active.
