VASP Polyclonal Antibody

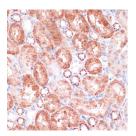

Catalog No.E-AB-66251ReactivityH,M,RStorageStore at -20°C. Avoid freeze / thaw cycles.HostRabbitApplicationsIHCIsotypeIgG

Note: Centrifuge before opening to ensure complete recovery of vial contents.

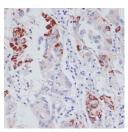

Images

Immunohistochemistry of paraffinembedded Rat lung using VASP Polyclonal Antibody at dilution of 1:100 (40x lens).

Immunohistochemistry of paraffinembedded Rat kidney using VASP Polyclonal Antibody at dilution of 1:100 (40x lens).

Immunohistochemistry of paraffinembedded Human liver cancer using VASP Polyclonal Antibody at dilution of 1:100 (40x lens).

Immunogen Information

Immunogen A synthetic peptide of human VASP (NP_003361.1).

GeneID 7408 Swissprot P50552 Synonyms VASP

Product Information

Buffer PBS with 0.02% sodium azide, 50% glycerol, pH7.3.

Purify Affinity purification **Dilution** IHC 1:50-1:200

Background

Vasodilator-stimulated phosphoprotein (VASP) is a member of the Ena-VASP protein family. Ena-VASP family members contain an EHV1 N-terminal domain that binds proteins containing E/DFPPPXD/E motifs and targets Ena-VASP proteins to focal adhesions. In the mid-region of the protein, family members have a proline-rich domain that binds SH3 and WW domain-containing proteins. Their C-terminal EVH2 domain mediates tetramerization and binds both G and F actin. VASP is associated with filamentous actin formation and likely plays a widespread role in cell adhesion and motility. VASP may also be involved in the intracellular signaling pathways that regulate integrin-extracellular matrix interactions. VASP is regulated by the cyclic nucleotide-dependent kinases PKA and PKG.
