(KO Validated) CTCF Polyclonal Antibody

Catalog No. E-AB-67371 Reactivity H,M,R Store at -20°C. Avoid freeze / thaw cycles. **Storage** Host Rabbit **Applications Isotype IgG**

Note: Centrifuge before opening to ensure complete recovery of vial contents.

Images

Western blot analysis of extracts from normal (control) and CTCF knockout (KO) 293T cells using CTCF Polyclonal Antibody at dilution of 1:1000.

Immunogen Information

Immunogen Recombinant protein of human CTCF.

GeneID 10664 P49711 **Swissprot**

Synonyms CCCTC-binding factor, CTCF paralog, CT27, Zinc

finger protein CTCF-T,CTCFL,BORIS

Product Information

Calculated MW 83kDa **Observed MW** 140kDa

Buffer PBS with 0.02% sodium azide, 50% glycerol, pH7.3.

Purify Affinity purification Dilution WB 1:500-1:2000

Background

This gene is a member of the BORIS + CTCF gene family and encodes a transcriptional regulator protein with 11 highly conserved zinc finger (ZF) domains. This nuclear protein is able to use different combinations of the ZF domains to bind different DNA target sequences and proteins. Depending upon the context of the site, the protein can bind a histone acetyltransferase (HAT)-containing complex and function as a transcriptional activator or bind a histone deacetylase (HDAC)-containing complex and function as a transcriptional repressor. If the protein is bound to a transcriptional insulator element, it can block communication between enhancers and upstream promoters, thereby regulating imprinted expression. Mutations in this gene have been associated with invasive breast cancers, prostate cancers, and Wilms' tumors. Alternatively spliced transcript variants encoding different isoforms have been found for this gene.
