

DIDO1 Polyclonal Antibody

Catalog No.	E-AB-67757	Reactivity	H
Storage	Store at -20°C. Avoid freeze / thaw cycles.	Host	Rabbit
Applications	IF	Isotype	IgG

Note: Centrifuge before opening to ensure complete recovery of vial contents.

Images

Immunofluorescence analysis of HeLa cells using DIDO1 Polyclonal Antibody

Immunogen Information

Immunogen	Recombinant fusion protein of human DIDO1 (NP_071388.2).
GeneID	11083
Swissprot	Q9BTC0
Synonyms	DIDO1,BYE1,C20orf158,DATF-1,DATF1,DIDO2,DIDO3,DIO-1,DIO1,dJ885L7.8

Product Information

Buffer	PBS with 0.02% sodium azide, 50% glycerol, pH7.3.
Purify	Affinity purification
Dilution	IF 1:20-1:50

Background

Apoptosis, a major form of cell death, is an efficient mechanism for eliminating unwanted cells and is of central importance for development and homeostasis in metazoan animals. In mice, the death inducer-oblierator-1 gene is upregulated by apoptotic signals and encodes a cytoplasmic protein that translocates to the nucleus upon apoptotic signal activation. When overexpressed, the mouse protein induced apoptosis in cell lines growing in vitro. This gene is similar to the mouse gene and therefore is thought to be involved in apoptosis. Alternatively spliced transcripts have been found for this gene, encoding multiple isoforms.
