Elabscience®

FGL1 Polyclonal Antibody

Catalog No.	E-AB-40424
Storage	Store at -20°C. Avoid freeze / thaw cycles.
Applications	IHC

Note: Centrifuge before opening to ensure complete recovery of vial contents.

Images

Immunohistochemistry of paraffinembedded Human liver using FGL1 Polycloanl Antibody at dilution of 1:100

Immunogen Information

Immunogen	Recombinant Human Fibrinogen-like protein 1 protein
GeneID	2267
Swissprot	Q08830
Synonyms	HFREP 1, HFREP-1, HFREP1, HP041, LFIRE1

Reactivity

Host

Isotype

Η

IgG

Rabbit

Product Information

Buffer	PBS with 0.05% Proclin300, 50% glycerol, pH7.3.
Purify	Antigen Affinity Purification
Dilution	IHC 1:50-1:200

Background

Fibrinogen-like 1 is a member of the fibrinogen family. This protein is homologous to the carboxy terminus of the fibrinogen beta- and gammasubunits which contains the four conserved cysteines of fibrinogens and fibrinogen related proteins. However, this protein lacks the plateletbinding site, cross-linking region and a thrombin-sensitive site which are necessary for fibrin clot formation. This protein may play a role in the development of hepatocellular carcinomas. Four alternatively spliced transcript variants encoding the same protein exist for this gene.

For Research Use Only
