# **CHRNA4 Polyclonal Antibody**

Reactivity Catalog No. E-AB-62040 M Storage Store at -20°C. Avoid freeze / thaw cycles. Rabbit Host **Applications Isotype IgG** 

**Note:** Centrifuge before opening to ensure complete recovery of vial contents.

# **Images**

Western blot analysis of extracts of Mouse kidney using CHRNA4 Polyclonal Antibody at dilution of 1:1000.

# **Immunogen Information**

Recombinant protein of human CHRNA4 **Immunogen** 

GeneID 1137 **Swissprot** P43681

**Synonyms** CHRNA4.BFNC.EBN.EBN1.NACHR.NACHRA4.N

ACRA4

#### **Product Information**

Calculated MW 60kDa/69kDa

**Observed MW** 70kDa

**Buffer** PBS with 0.02% sodium azide, 50% glycerol, pH7.3.

**Purify** Affinity purification Dilution WB 1:500-1:2000

# **Background**

This gene encodes a nicotinic acetylcholine receptor, which belongs to a superfamily of ligand-gated ion channels that play a role in fast signal transmission at synapses. These pentameric receptors can bind acetylcholine, which causes an extensive change in conformation that leads to the opening of an ion-conducting channel across the plasma membrane. This protein is an integral membrane receptor subunit that can interact with either nAChR beta-2 or nAChR beta-4 to form a functional receptor. Mutations in this gene cause nocturnal frontal lobe epilepsy type 1. Polymorphisms in this gene that provide protection against nicotine addiction have been described. Alternative splicing results in multiple transcript variants.
