S100A4 Monoclonal Antibody

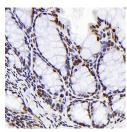

Catalog No.E-AB-70355ReactivityH,M,RStorageStore at -20°C. Avoid freeze / thaw cycles.HostMouseApplicationsIHCIsotypeIgG

Note: Centrifuge before opening to ensure complete recovery of vial contents.

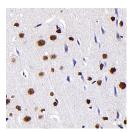

Images

Immunohistochemistry analysis of paraffin-embedded human lymphoma using \$100A4 Monoclonal Antibody at dilution of 1:300.

Immunohistochemistry analysis of paraffin-embedded mouse colon using S100A4 Monoclonal Antibody at dilution of 1:300.

Immunohistochemistry analysis of paraffin-embedded Rat brain using S100A4 Monoclonal Antibody at dilution of 1:300.

Immunogen Information

Immunogen Recombinant protein corresponding to Mouse S100A4

Swissprot P26447,P07091,P05942
Synonyms 18A2,42A,calcium Placental protein,Calvasculin,CAPL

Product Information

Buffer PBS with 0.02% sodium azide, 1% protective protein

and 50% glycerol, pH7.4

Purify Affinity purification

Clone No. 3A6H9

Dilution IHC 1:200-1:800

Background

S100A4 is a member of the S100 family of calcium-binding proteins. The S100 family members have been involved in the regulation of a number of cellular processes such as cell cycle progression and differentiation. S100A4 is known to localize to and function in the nucleus, cytoplasm of cells and the extracellular space. S100A4 has also been shown to be associated with tumor growth, motility, invasion, metastasis, angiogenesis, apoptosis and chemoresistance. It is a fibroblast-specific protein associated with mesenchymal cell morphology and motility, is expressed during epithelial-mesenchymal transformations (EMT) in vivo. It is an improved marker for lung fibroblasts that could be useful for investigating the pathogenesis of pulmonary fibrosis. Overexpression of S100A4 is correlated with a worse prognosis inpatients with various types of cancer.
